1. Introduction

VSI Performance Coverage Analyzer (PCA) Version 5.1-2 for OpenVMS IA-64 and Alpha systems is part of VSI DECset Version 13.0-3 for OpenVMS IA-64 and Alpha systems.

PCA is not yet available for OpenVMS x86-64 systems.

All versions of VSI PCA check for a license PAK from VMS Software, Inc. You must have a license PAK from VMS Software, Inc. to use this product.

2. New in This Release

This version of VSI PCA is functionally equivalent to HP's PCA V5.0-3, with the following change:

The DECwindows interface to PCA on IA-64 now works as expected. It did not work in the prior two releases of HP DECset. PCA on OpenVMS Alpha did not have this problem.
