# 1. Introduction

VSI Source Code Analyzer (SCA) V5.2-3 for OpenVMS x86-64, IA-64, and Alpha systems is part of VSI DECset Version 13.0-3 for OpenVMS x86-64, IA-64, and Alpha systems.

All versions of VSI SCA check for a license PAK from VMS Software, Inc. You must have a license PAK from VMS Software, Inc. to use this product.

VSI SCA V5.2-2 was not released.

# 2. New in This Release

VSI SCA V5.2-3 is functionally equivalent to HP's SCA V5.1-2, with the following changes:

- The SCA DECwindows interface now works as expected on IA-64 systems. It did not work in the prior two releases of HP DECset on IA-64. SCA on OpenVMS Alpha did not have this problem
- The SCA Server is not installed with this kit. However, the previous version of the SCA server software, if any, is not removed from your system.
