

# Transitioning to VSI

Why and How to work with VSI to move your OpenVMS systems forward.

Eddie Orcutt, VP Software Engineering  
Terry R. Holmes, VP Sales & Marketing

# Moving Forward with VSI OpenVMS

# Why remain on OpenVMS?

## High availability!

OpenVMS is renowned for its 99.999% uptime reputation.

OpenVMS availability is measured in years, not weeks or months, as you would expect on other general purpose operating systems.

Demonstrated over time!

European railway company

18 years

highest recorded uptime  
without reboot

# Why remain on OpenVMS?

## Security!

Security has been architected into the OS from the very beginning

Includes numerous features to restrict and control access to resources.

Proven over time!

73x

Fewer daily security vulnerabilities

10x

Lower security patch rate

# Why remain on OpenVMS?

## Trust!

You have years experience with Open VMS.

OpenVMS causes fewer sleepless nights.

This cannot always be measured monetarily.

73x

Fewer daily security vulnerabilities

10x

Lower security patch rate

# Financial Analysis - TCO

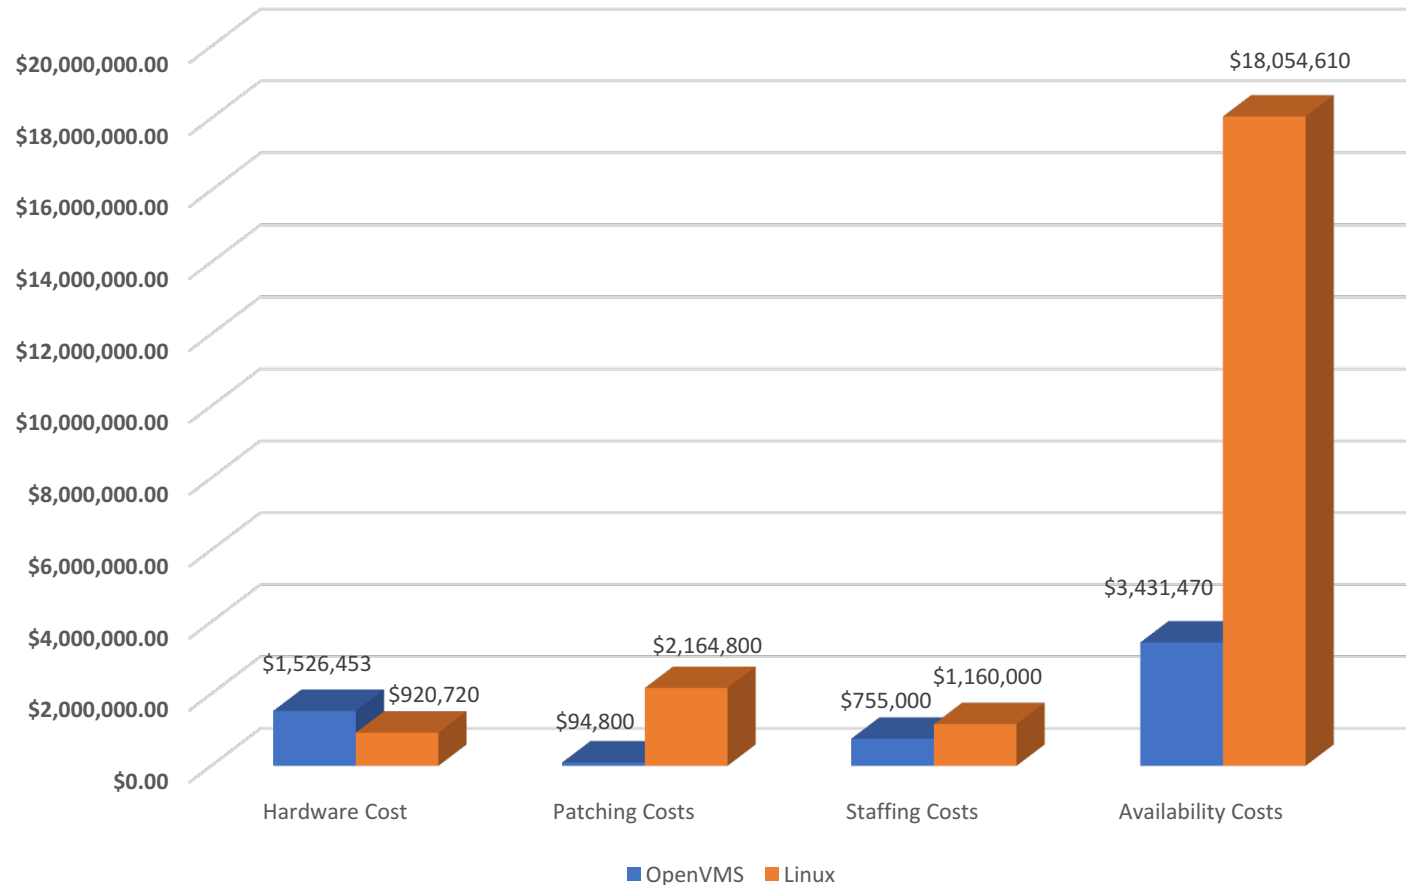

# Financial Analysis: Why VSI OpenVMS is proven to be the right answer!

- TCO Comparison: OpenVMS vs. Linux
  - High Availability (Less Downtime)
  - Extreme Security (Fewer Patches Required)
  - Staffing costs
  - Hardware costs

# 5-Year TCO

For 40 application servers, 10 DB servers

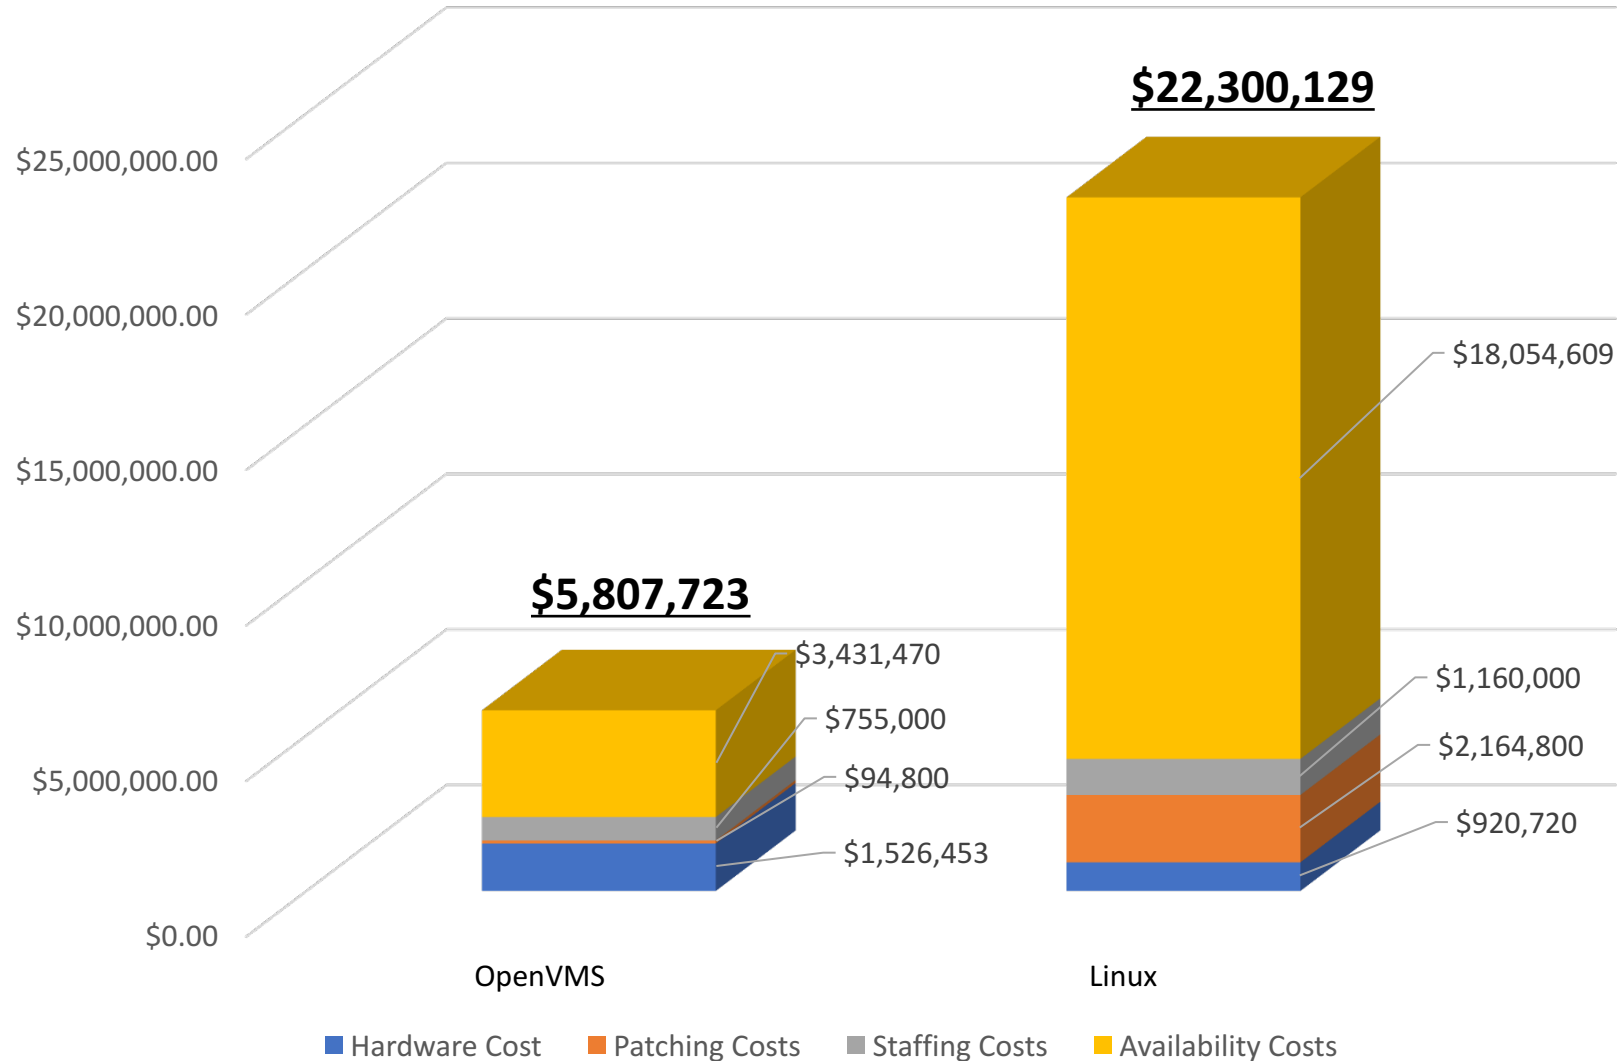

## OpenVMS vs Linux Costs

# 5-Year TCO Costs

For 40 application servers, 10 DB servers

## **Financial Analysis: VSI OpenVMS is proven to be the right answer!**

- TCO with OpenVMS is easily less than 1/3 the cost when compared to Linux
- **COSTS** of migration off of OpenVMS is really unknown, but likely **VERY, VERY COSTLY**
- **COSTS** of data breaches may be even **MORE COSTLY**

# You are not alone!

(Major Organizations use OpenVMS Today)

- **Financial Services**
- **Manufacturing**
- **Healthcare**
- **Military**
- **Retail**
- **Distribution**
- **Energy**
- **Public Transit**
- **Automotive**
- **Aerospace**
- **Education**
- **Gov't Classified**
- **..... & More**

# Historical Transition for OpenVMS O/S

- After HP announces end of support for OpenVMS in 2013, VSI purchases the Rights to OpenVMS in 2014.
- VSI has the Exclusive rights to develop new versions of OpenVMS
- VSI has the Perpetual Worldwide License
- VSI has the Right to use the OpenVMS trademark
- VSI has the Right to release OpenVMS on any hardware (including the mainstream Intel x86 platform)
- VSI / HPE have fundamental agreement to transition customers to VSI (HPE gains new HW business / VSI gains new OpenVMS SW business)

# OpenVMS Clearinghouse

# How is VSI doing?

- Business nearly doubled from previous year.
  - FY2018 looks very strong.
  - Customer transition well underway.
- 2018 - Stronger VSI Marketing and Partner Outreach.
- VSI makes a strong Commercial Case to Customers
  - **VSI is the only company who can offer The Rights To New Versions including OpenVMS V9.0 and higher.**
  - **RTNV** includes VSI's x86 port scheduled for 2020.
  - **RTNV** includes all OpenVMS users including Alpha and Integrity V9.2.
  - VSI is the OpenVMS Clearinghouse for all OpenVMS.

# X86 Port Update

# Executive Summary – x86-64 Release Plan

- The Release Plan has multiple stages.
- V9.0: x86-64 Early Adopter Kit (EAK) – kick the tires
  - The EAK is for a selected set of partners, ISVs, and customers
  - The system will be less than complete
  - Content will depend, to a large degree, on the needs of the participants
  - Cross tools (run on Itanium, target x86) – compilers, linker, .....
  - Q4 2018
- V9.1: x86-64 General EAK Release – reasonably complete system
  - Available for all partners, ISVs and customers
  - Not for production
  - Native tools
  - Q3 / Q4 2019
- V9.2: x86-64 Production Release - complete system
  - Same features will be on Alpha and Itanium, where possible
  - Alpha and Itanium V9.2 releases will follow in a few months
  - 2020

# VSI Support

# Best in Class Support

- Only VSI support staff has first hand access to VSI OpenVMS development engineers and provides 90-Day Conformance Warranty.
- Only VSI provides 4 levels of “Best in Class” support.
- Only VSI supports some layered products previously unsupported.
- Only VSI provides Rights to New Versions (RTNV)
  - Receive free, automatic version updates during the term of your VSI support.
  - Receive free license upgrades for VSI during the term of your VSI support.

# VSI Service Offerings

## Bronze 9X5 Support

- Standard support phone number provided
- <sup>1</sup> Right to New Versions (RTNV) of a VSI product
- Access to all software updates/patches provided between numbered releases
- Technical Support 9 hours a day, during 5 business days a week
- Provided periodic VSI updates
- 4 hour response from initial customer contact. This assumes that the customer uses the standard support phone line provided to the customer by VSI.

## Silver 24X7 Support

- Standard support phone number provided
- <sup>1</sup> Right to New Versions (RTNV) of a VSI product
- Access to all software updates/patches provided between numbered releases
- Technical Support 24 hours a day, 7 days a week
- Provided periodic VSI updates
- 2 hour response from initial customer contact. This assumes that the customer uses the standard support phone line provided to the customer by VSI.

## Gold 24X7 Support

- Standard support phone number provided
- <sup>1</sup> Right to New Versions (RTNV) of a VSI product
- Access to all software updates/patches provided between numbered releases
- Technical Support 24 hours a day, 7 days a week
- Assigned a remote Technical Account Manager (TAM)
- VSI software patch analysis
- VSI software system health checks
- Provided periodic VSI updates
- 1 hour response from initial customer contact. This assumes that the customer uses the standard support phone line provided to the customer by VSI.

## Platinum 24x7 Support

- Dedicated phone number provided on sign-up
- <sup>1</sup> Right to New Versions (RTNV) of a VSI product
- Access to all software updates/patches provided between numbered releases
- Technical Support 24 hours a day, 7 days a week
- Assigned a remote Technical Account Manager (TAM)
- Quarterly VSI software patch analysis
- Quarterly VSI software system health checks
- Provided periodic VSI updates
- Immediate response from initial customer contact. This assumes that the customer uses the dedicated phone line provided to the customer by VSI.

# Planning to Upgrade - Technical

# VSI OpenVMS Releases – To date

- 3 OpenVMS Integrity Releases
- V8.4-1H1 – Bolton
  - June 2015
- V8.4-2 - Maynard
  - March 2016
- V8.4-2L1 – Hudson
  - August 2016

Plus ...

Japanese Version

- DECforms V4.2
- DCPS V2.8
- FMS V2.6
- DECwindows Motif V1.7E

- 2 OpenVMS Alpha Releases
- V8.4-2L1 – February 2017
  - Standard OpenVMS Release (Hudson)
- V8.4-2L2 - April 2017
  - Performance Build - EV6/EV7 (Felton)

# Planning to Upgrade to VSI OpenVMS

- What hardware platforms are supported?
- What server models are supported?

- Upgrade paths
  - What VSI OpenVMS versions are available?
  - How do I get to VSI versions?

- Can I have mixed OpenVMS versions in the same cluster?
  - VSI – VSI versions?
  - HPE – VSI versions?

# Don'ts

Mix VSI & HPE software on the Same Server

# HP TO VSI UPGRADE SERVICES

Let us do the work for you!

# HPE to VSI Upgrade Services

- Offered through VSI Professional Services Alliance
- Software Concepts International
  - Located in Nashua, NH (USA)
  - 30+ years in business supporting OpenVMS
  - International reputation as leading provider
    - Managed services for OpenVMS & databases
    - OpenVMS performance and consulting services
- Completed over 30 HP to VSI VMS upgrades across 8 distinct projects in last 12 months alone

# SCI HP to VSI Upgrade Projects Summary

## Hardware:

- Integrity HP v8.4-x → VSI v8.4-2L1
- Alpha HP v7.3 to v8.4-2L2 (Physical & CHARON)
- Alpha HP v7.3-2 → Integrity VSI v8.4-2L1

## Layered and 3rd Party Products:

- Oracle Rdb, ACMS, COBOL, BASIC, Pascal, C, Python, FMS, BEA MQ, Websphere MQ, Datatrieve, Synergy/DE, JAMS, JSS, CODASYL DBMS, JDBC, Rally, SQLSERVICES, TCPIP, Attunity, Multinet...

## Business Applications:

- Custom and commercial applications

## Clustering:

- Single nodes, clusters, multi-site clusters

## Industries:

- Healthcare, Financial, Manufacturing, Insurance, Leasing, Distribution and Gaming

# Examples: Integrity Upgrades

- **Insurance sector:** 5 RX3600/6600 standalone → V8.4 to VSI VMS V8.4-2L1
  - Oracle Rdb, ACMS, COBOL, BEA MQ, Websphere MQ
  - Mission Critical: 1672 days uptime prior to upgrade
- **Financial sector:** 5 Integrity systems → V8.4 to VSI V8.4-L1
  - ♦ Oracle Rdb, COBOL, ACMS, Datatrieve, clustered and standalone
- **Transportation/distribution sector:** 7 BL860C → V8.4 to VSI V8.4-2L1
  - Custom applications, Synergy/DE, JAMS
  - Single site cluster to multi-site split cluster

# Examples: Alpha Upgrades

- ◆ **Manufacturing sector: V7.3-2 to VSI V8.4-2L2**
  - ◆ GS1280/ES40 4 node cluster
  - ◆ WorkStream, CODASYL DBMS
  - ◆ Performance Improvements → Daily archive job, averages before / after

Archive Job	V7.3-2	V8.4-2L2
Charged CPU	0:21:12	0:10:34
Elapsed Time	1:59:50	1:27:18

# Alpha Upgrades, continued

- **Financial sector:** V7.3-1 direct to VSI V8.4-2L2
  - Oracle Rdb, COBOL
  - CHARON emulator
  - Time constraints mandated this unsupported upgrade path
- **Healthcare sector:** 2 ES80 clustered, 4 ES40 standalone V8.4 to VSI V8.4-2L1
  - Oracle Rdb
  - CHARON emulation
- **Healthcare sector:** 2 ES80s + 1 DS25 V8.4 to VSI-VMS 8.4-2L1
  - COBOL custom application

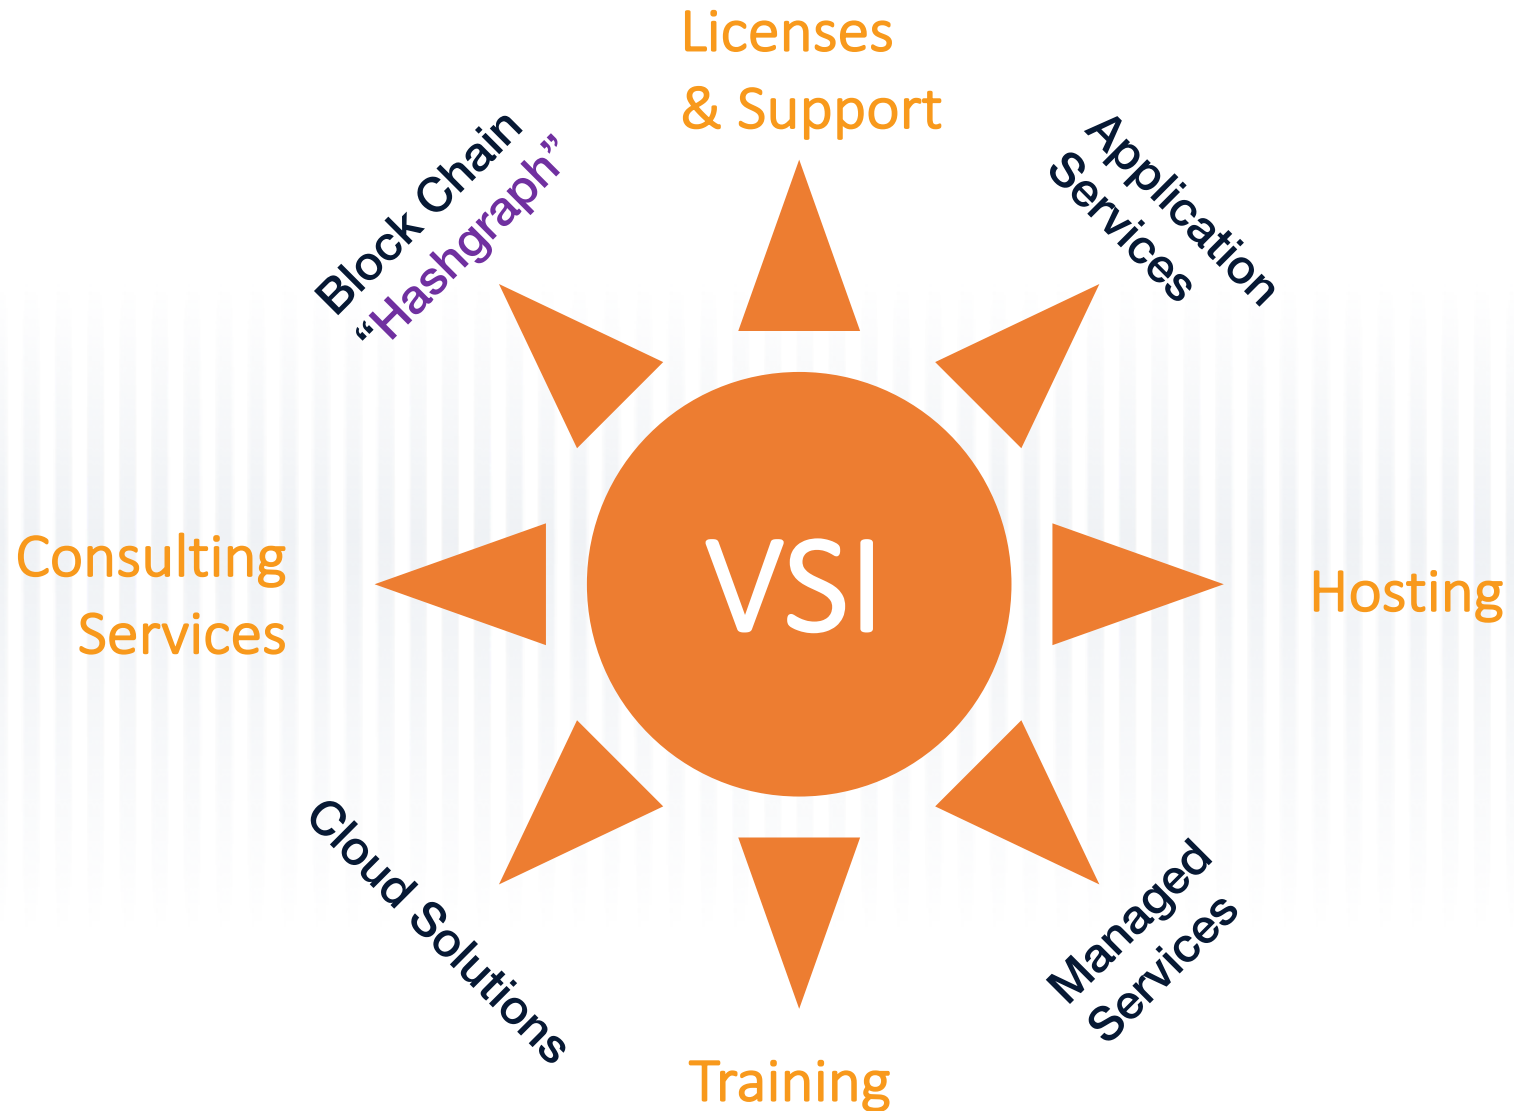

# Examples: Alpha to Integrity Migrations

- **Financial Services Sector:** Migrate from Alpha to VSI VMS on I64
  - ES40s and DS20 to RX2800s
  - Standalone to cluster in production
  - Pure Storage SAN, controller replication
  - BASIC application, Attunity Connect

# Observations

- Generally straight forward  
(if you know what you are doing)
- Significant performance benefits for Alpha customers
- VSI refreshingly responsive to correcting defects and implementing enhancements

# OpenVMS Clearinghouse

# How to “Operationally” Move Forward with VSI

## Step 1: Contact VSI

- [sales@vmssoftware.com](mailto:sales@vmssoftware.com)
- [info@vmssoftware.com](mailto:info@vmssoftware.com) (General or Technical Inquiries)
- [www.vmssoftware.com](http://www.vmssoftware.com)
- E-mail VSI person
- Call our HQ in Bolton, MA USA +1 978 451-0110
- VSI Key Account Manager assigned

## Step 1: Contact Reseller Partner

- If you have an appointed vendor that you work with, we are happy to work with them.
- VSI Partners Page on website will be listed by end of May, 2018.

## Step 2: VSI Pre-Sales Qualification

- Whether Licenses, Support, or Services
- If Upgrading VSI Licenses and Support
- VSI needs basic server information (model number, # of Skts / # of Cores, # of Active Skts, Layered Products, Open Source, etc.)
- [\\$Show License & \\$Show CPU command reports / Plus level of support](#)
- If you are a potential VSI Reseller, you will receive a VSI Credit application to complete and returned to VSI

# How to “Operationally” Move Forward with VSI

## Step 3: VSI Proposal

- Once we have customer information details – Proposals out in 72 business hours
- We (VSI Partner) try to follow up with you to ensure the proposal meets your requirements and to address any questions

## Step 4: VSI Ordering

- Purchase Orders are sent to the VSI Key Account Manager that you have worked with or to your chosen VSI Partner.

## Step 5: VSI Fulfillment

- Encrypted VPAKS sent via e-mail within 72 hours. (E-Mail / Hard Copy)
- Customer sent separate e-mail with PW
- VSI “Welcome to Support” Letter
  - \* Terms and Coverage of your support
  - \* Phone / e-mail Support contact information

# VSI Announcements

# New VSI VAX Support Programs

- Provides 24x7 OpenVMS technical support (L1/L2)
- Available on VAX models
- Priced by hardware tier
  - Workgroup
  - Departmental
  - Enterprise

# Swirls Hashgraph Partnership

*“Next Generation of Blockchain Technology”*

- Swirls
  - Company that owns Hashgraph IP and implement Hashgraph platform.
  - Hashgraph is next generation distributed ledger.
- Swirls is partnering with VSI to run Hashgraph on VSI OpenVMS.
- Support partners and customers to implement and operate next generation distributed applications.
- Partnership improves speed, security, costs and availability.

# New VSI Cloud Solutions

- Partnership with Advanced Virtualization Technologies (AVT / Vere Technologies)
- Move aging VAX and Alpha OpenVMS systems into the cloud.
- Effective for many deployment models
  - Private
  - Public
  - Community
  - Hybrid

# Coming Attractions

- VSI Participation in Regional Events
  - IT Symposium – May 14-16. (Leipzig, Germany)
  - UK Users Group Event – May 23 (London, UK)
  - OpenVMS Boot Camp – April 7-10, 2019 (Boston, MA area)
- Upcoming webinar event.
  - Next scheduled webinar is June 6.
  - Modernizing your Alpha systems.

# Thank You
